## Chapter 1 by 🐾Alahna🐾

I used to be happy, and I used to have lots of friends and I even have had boyfriends at some points. But all I've gotten from those boys is hurt, and one is even trying to hurt me even more by using me.

Right now I'm too scared to date anyone, for fear that they might break my heart like the others have. I don't know who I can trust.

I'm sort of tired of boys. They just want you for things that you don't need to give them.

Sometimes I feel like I'm alone and no one likes me and I will never find my true love.

And don't say I'm overreacting because I don't think I am because you do t know what I've been through and please don't put hateful comments in this story thing. I already get enough of those in person.
